## Data and Information Services

### **Source**

D&IS used the Compensation and Pension Master Record (CPMR) file for active records from the end of month May 2006.

### **Methods**

D&IS searched the current CPMR for veterans receiving compensation and living in Wisconsin.

### **Limitations**

Veterans living in Wisconsin were identified based on the mail code stored in the CPMR. It is possible that the mail code may not be current or may have been entered incorrectly. In such cases, veterans may have been incorrectly included in or excluded from these results.
