

Veterans Benefits Administration
Data and Information Services

**Veterans Residing in Wisconsin Receiving Individual
Unemployability (IU) Benefits**
Data Request 06-005

Summary

Data and Information Services (D&IS) provides the following response to a request made by the Milwaukee Regional Office (RO) on October 5, 2005.

Milwaukee RO Request

The Milwaukee RO requested a count of all veterans residing in the state of Wisconsin and receiving IU benefits.

D&IS Response

D&IS identified **3,536** veterans residing in the state of Wisconsin and receiving IU benefits in the September 2005 Compensation and Pension Master Record (CPMR).

Methodology/Limitations

D&IS counted all veteran compensation awards in the most recent CPMR where the mail code indicated that the veteran resides in Wisconsin and the Employability Code indicated that the veteran receives IU. The CPMR does not store the state separate from the rest of the address. The VA mail code for the veteran was used to identify veterans residing in Wisconsin. If this mail code was incorrect, a veteran residing in Wisconsin would not be included in the count above. In addition, if the Employability Code was incorrect, a veteran receiving IU would not be included in the count above.

Sources

D&IS used the end of month September 2005 CPMR.
